

phd open

winter 2008 / spring 2009

Grzegorz Czajkowski
and Grzegorz Malewicz
Computing on Large Clusters

Dexter Kozen
Metric Coinduction

Piotr Sankowski
Approximation Algorithms for
Stochastic Optimization Problems

Stefan Dziembowski
Cryptography on Non-Trusted
Machines

Assaf Kfoury
Lightweight Formal Methods for the
Development of High-Assurance
Networking Systems

David Harel
Three Grand
Challenges

Michael Witbrock
Thinking on a Grand Scale

Kousha Etessami
The Computational Complexity of
Nash Equilibria and Fixed Points
of Algebraic Functions

Luca Cardelli
Molecules as Automata
